

## HERMITAGE COGNACS

### Hermitage Cognacs bring rare 19<sup>th</sup> Century brandies to Singapore in April

Hermitage Cognacs, one of the world's leading providers of rare and fine cognac, are exhibiting at ProWine Singapore between the 25-28<sup>th</sup> of April 2023.

Hermitage have an unparalleled reputation in the UK for being able to source some of the rarest and best cognacs in the region, including some which date from the 19<sup>th</sup> Century. Hermitage Managing Director David Baker will be in Singapore with his team to show their incredible liquids to the visitors of the trade fair.

David Baker says:

“The past few years have seen a real surge in interest in fine cognacs, as people recognise not only their extraordinary quality and ability to age, but also the investment potential of such rare bottlings. Hermitage Cognacs are unique, single estate, pure cognacs with age statements. During my visit to Singapore in November 2022 I saw for myself the huge enthusiasm which collectors have for rare and fine bottlings. We are bringing a fantastic selection, featuring everything from our ‘everyday’ 20 year old Grande Champagne, right through a dazzling line up of 20<sup>th</sup> Century cognacs, to our ‘Paradis’ of 1880 and 1889.”

Baker has made his name in the UK and elsewhere for his ability to seek out single barrels of precious cognac from family houses in the region and offer them to international collectors. As demand for rare spirits continues to grow, Cognac offers a very good investment opportunity, and the liquids themselves are almost age-proof, something that is rare in old bottlings.

Meet our cognac Grand Master, David Baker and discover some of the phenomenal Hermitage Cognacs at Booth 5C3-07, at ProWine Singapore from 25-28<sup>th</sup> April for a superb cognac experience.
