## Discover the East Side Distillery: Crafting Fusion Spirits Inspired by India and Japan

East Side Distillery, founded in 2021 by Jai Anand, emerges as a cultural fusion in the world of craft spirits. The distillery's name, East Side, embodies the convergence of two rich and inspiring cultures – India and Japan. With an unwavering commitment to crafting unique spirits, East Side Distillery proudly presents a trio of award-winning spirits, each a testament to the harmonious blend of traditions and flavors.

### DOJA INDO JAPANESE GIN

InDO-Japanese Gin is a new wave craft gin that honors a legacy of *2 cultures in 1 sip*. It is the result of native botanicals from Japan and India being mixed to create something new. Our artisanal small-batch gin has a yuzu-dominant base, complemented by hints of cedar, sansho pepper, and hinoki from Japan, and traditional botanicals from India. This unique combination creates an intense, spicy gin that is as memorable as it is delicious.

### PORTAL LONDON DRY GIN

Our latest addition to the gin family, "Portal", crafted in the classic London Dry style, features a carefully selected blend of Indian botanicals. The result is a perfectly balanced and refreshing gin with complex and sophisticated taste which can be enjoyed on its own or mixed into your favorite cocktails. Portal boasts flavors of pine, citrus zest, earthiness, and fresh herbs, culminating in a smooth and dry finish, perfect for classic drinks as well as inventive concoctions truly showcasing a "Journey in Every Sip."
